CORE COMPETENCIES

- Data Annotation & Evaluation
- Quality Assurance & Validation
- Content Review & Rating
- Prompt & Response Evaluation
- Translation & Transcription
- Research & Fact-Checking
- Data Entry & Verification
- Technical Documentation
- Search Relevance Assessment
- Process Improvement
- Remote Collaboration

DATA ANNOTATION SKILLS

- Text Classification & Labelling
- Sentiment & Intent Tagging
- Named Entity Recognition (NER)
- Technical Content Evaluation
- Dataset Quality Review
- Guideline-Based Assessment
- Pairwise Comparison Tasks
- Human Feedback (RLHF)
- Audio & Speech Transcription

IT & NETWORK EXPERTISE

- Cisco Routers & Switches
- Huawei & Zywall Firewalls
- Fiber Optic Infrastructure
- Microwave Radios (Harris)
- GSM / CDMA Antenna Systems
- TDMA Systems
- PXE Imaging & Deployment
- Network Diagnostics & Fault Resolution
- RF Alignment & GPS Surveying

CAD & DESIGN

- AutoCAD 2D & 3D Modelling
- Technical Drawings
- Site Planning & Visualisation
- Infrastructure Documentation

TOOLS & PLATFORMS

- Microsoft Office Suite
- Google Workspace
- Microsoft Excel (Advanced)
- Crowdsourcing Platforms
- Annotation Platforms
- Asset Management Systems
- Zoom / Teams / Slack

15+ Years	Federal Govt	Newark-Based	Multi-Sector
IT Experience	Scholar	Professional	Specialist

PROFESSIONAL PROFILE

Results-driven IT and Telecommunications specialist with over 15 years of progressive experience building resilient infrastructure and delivering exceptional technical solutions across the USA and Nigeria. A Federal Government Scholar and Best Graduating Student recognised for academic and professional excellence, Oyeniran combines deep expertise in network engineering, fiber optic systems, CAD design, and desktop support with a strong foundation in quality assurance, data annotation, and performance optimisation.

Equally adept in technical fieldwork and structured evaluation tasks, he brings a rare combination of engineering precision, analytical rigour, and meticulous attention to detail to every engagement. Currently pursuing concurrent roles in IT support and data quality evaluation, Oyeniran is well-positioned for technical annotation, content review, and quality assurance projects that demand high standards, independent judgement, and consistent output.

PROFESSIONAL EXPERIENCE

Desktop Support Technician

Raritan Pharmaceutical Company — East Brunswick, NJ | April 2018 – Present

- Deploy and configure desktops, monitors, and peripherals with precision, ensuring seamless integration across pharmaceutical lab operations and compliance-sensitive workflows.
- Manage end-to-end structured cabling installations and maintain pristine work environments to support quality-critical pharmaceutical processes.
- Install and maintain printers, labelling machines, and specialised IT hardware essential to lab operations and regulatory compliance standards.
- Execute laptop imaging via PXE and perform precise user data migrations with full application consistency across transitions.
- Conduct preventative equipment maintenance and component replacements, minimising downtime and extending asset lifespan across the facility.
- Maintain a comprehensive IT asset inventory and provide responsive, solution-focused technical support to the lab operations team.

Quality Assurance & Data Evaluation Specialist

Multiple Organisations — Remote | 2020 – Present

- Evaluate model-generated outputs and system performance for accuracy, relevance, tone, and policy compliance, providing structured written feedback to drive continuous quality improvement.
- Perform data annotation and labelling tasks including text classification, sentiment tagging, named entity recognition, and technical content evaluation across diverse datasets and guidelines.
- Complete pairwise comparison, search relevance rating, and content review tasks across crowdsourcing platforms, consistently maintaining high accuracy scores.
- Conduct human-centred validation and testing to ensure outputs meet rigorous quality benchmarks across multiple concurrent project streams.
- Transcribe audio and video content in verbatim and clean-read formats, meeting strict turnaround deadlines and accuracy standards.
- Apply evolving task rubrics and guidelines with strong independent judgement, delivering consistent, high-quality output across all evaluation task types.

Project Engineer

21st Century Technologies Ltd. — Victoria Island, Lagos, Nigeria | 2005 – 2011

- Collaborated with SIEMENS on strategic network planning and large-scale telecommunications infrastructure execution, delivering reliable enterprise solutions.
- Managed design and implementation of fiber optic infrastructure for enterprise and carrier-class networks across multiple project sites.
- Configured and deployed routing and switching equipment — Cisco, Huawei, and Zywall — with meticulous attention to performance optimisation and standards.
- Supervised contractor teams to ensure strict adherence to quality standards, project timelines, and technical specifications.

■ LANGUAGES

◆ English — Fluent / Professional

■ KEY STRENGTHS

- ◆ 15+ Years Technical Expertise
- ◆ Exceptional Attention to Detail
- ◆ Complex Problem-Solving
- ◆ Team Leadership & Mentoring
- ◆ High-Volume Task Delivery
- ◆ Strong Written Communication
- ◆ Independent & Reliable

■ ELIGIBILITY

Authorised to Work in the USA
Newark, NJ Resident
Available for Remote Work
Immediate Start

- Monitored network systems for security threats, performance degradation, and faults; resolved critical outages with rapid and accurate diagnostics.

Field Engineer

Bresarch Telecommunication Ltd. — Lagos, Nigeria | 2005

- Installed GSM/CDMA antennas and RF feeder cables with precision engineering to support nationwide cellular infrastructure rollout.
- Resolved microwave transmission faults and restored base stations to full operational capacity under strict service continuity timelines.
- Conducted antenna azimuth alignment using specialised tools and validated site readiness prior to network commissioning and launch.
- Restored power systems and maintained transmission stability during critical infrastructure transition periods.

Engineering Executive

Odu'a Telecom Ltd. — Ibadan, Nigeria | 2004 – 2005

- Installed and maintained TDMA antennas and microwave radios, ensuring network reliability and performance standards across the region.
- Conducted comprehensive network troubleshooting and performed equipment maintenance to sustain service continuity and minimise fault resolution time.
- Delivered customer-facing internet installation support with strong technical expertise and professional communication.
- Utilised GPS technology to determine precise site coordinates and validated all project deliverables against technical specifications.

Assistant Quality Control Officer

Bentos Pharmaceutical Products Ltd. — Ibadan, Nigeria | 1998

- Measured raw materials with laboratory precision and participated in controlled drug production processes under regulatory standards.
- Conducted rigorous quality checks on tablets, syrups, and wine products to ensure full compliance with pharmaceutical quality standards.

EDUCATION & QUALIFICATIONS

HND — Physics / Electronics

The Polytechnic, Ibadan | 2002 · Best Graduating Student

OND — Science Laboratory Technology

The Polytechnic, Ibadan | 1998

Diploma — Computer Engineering & Networking

Infometriqs Computer Institute, Ibadan | 2005

Diploma — AutoCAD (2D & 3D)

VDC Computer Training School, Lagos | 2007

Project Management Professional (PMP) Prep

Albert & Benjamin Ross | 2009

PROFESSIONAL TRAINING & CERTIFICATIONS

- ◆ Harris ClearBurst™ — Installation & Maintenance
- ◆ Data Annotation & Labelling Fundamentals
- ◆ Megastar & Microstar Harris Microwave Radios
- ◆ Quality Assurance Principles & Practice
- ◆ Evaluation & Human Feedback Methodology
- ◆ Google Digital Garage — Digital Skills Certificate

NOTABLE ACHIEVEMENTS

- ★ Best Graduating Student — Physics/Electronics, The Polytechnic, Ibadan (2001/2002)
- ★ Federal Government Scholarship Award — Federal Ministry of Education (2002)
- ★ Distinguished Class Representative — NASTES, The Polytechnic, Ibadan (1996/1997)
